DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 3/25/2005 has been entered.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 52 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 52 is indefinite because it depends on a cancelled claim.

It is noted that claim 23 is mistakenly indicated as "cancelled" on page 2, line 4 of the last amendment.

Claim Rejections - 35 USC § 102

4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Art Unit: 3672

5. Claims 23, 25, 34, 35, 36, 38, 40, 41, 43, 44, 46, 49, 50, 52, 65, 67, 68, 69, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 97 and 98 are rejected under 35 U.S.C. 102(b) as being anticipated by Swadi et al (US 5,890,550) (see figures 1-3). It is noted that by drawing a vertically extending nozzle boss adjacent to the bit leg 31 shown in figure 2 or 3, one can see that the cross-sectional area of the junk slot increases from the bottom of the nozzle boss to the top of the nozzle boss as claimed.

Claim Rejections - 35 USC § 103

6. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

7. Claims 39, 47 and 48 are rejected under 35 U.S.C. 103(a) as being unpatentable over Swadi et al '550 in view of Nguyen (US 5,494,123) or Coates (Re. 32,495).

Swadi et al disclose the invention as claimed except for the shape of the bit body is not conical or the backface is not tapered. However, it would have been obvious to one of ordinary skill in the art at the time the invention was made to provide Swadi et al with a conical bit body or a tapered backface as claimed because it is well known to make the bit body in such a manner to facilitate the flow of drilling mud and cuttings as evidenced by Nguyen '123 (see figures 1-2) or Coates '495 (see figures 1-4).

Allowable Subject Matter

8. Claims 26-32, 42, 45, 66 and 70-73 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
